SUSQUEHANNA BONSAI CLUB

For more than 2,000 years the living art form which is Bonsai was practiced and perfected by the Japanese.

WHAT IS BONSAI?

Bonsai (bone-sigh) means "plant in a pot", but over the centuries it has come to refer specifically to the art of creating living trees and landscapes in miniature. A Bonsai is not a particular variety of plant, but rather it's a way of growing, shaping and developing any variety of woody tree or shrub into a miniature work of art. It is an adventure as exciting to participate in as it is to view and it's all available to you.

The Club meets monthly. Some meetings are held at a local nursery, occasionally at members' homes, with occasional trips to local bonsai or Japanese gardens.
